ABOUT MARBLE MUSIC ACADEMY'S GROUP LESSONS

Our goal is to provide high-quality music education to students of all levels, ages and abilities.

While we believe that private tuition is invaluable, small group lessons also have an important place in music education. This type of lesson is suitable for students who prefer a social environment, more relaxed weekly goals, and a slightly slower pace. These lessons come at a highly reduced cost when compared to private lessons, although the same education is provided.

PRACTICE

To get value from small group lessons, it is advised to practice at least 10-15 minutes per day, 5 days a week. This is a nice way to ease the student into a routine, get them involved with music regularly and enable them to keep up with their friends in class.

PARENTAL INVOLVEMENT

An important factor that can be easily overlooked is parental involvement at home, especially with younger students. Setting a regular practice routine and making sure they complete weekly assignments is crucial to successful learning.
