ABOUT OUR 5 WEEK INTRODUCTION TO GUITAR COURSE

This 5-week course is designed to give potential students an idea of what guitar lessons are like.

It can be expensive to begin lessons, due to the cost of the guitar, music books, equipment, along with the cost of lessons. This is a big investment without knowing if the student will continue after the first couple of weeks.

For this reason, guitars are provided for classroom use, along with some small introductory workbooks during the 5 weeks.

PRACTICE

To get value from guitar lessons, it is advised to practice 10-15 minutes per day, 5 days a week. As this is an introduction to the guitar, worksheets will replace guitar practice until the students complete the course.

PARENTAL INVOLVEMENT

An important factor that can be easily overlooked is parental involvement at home, especially with younger students. Setting a regular practice routine and making sure they complete weekly assignments is crucial to successful learning.
